SB Standard: pH, phosphorus (P), potassium (K), magnesium (Mg) (VDLUFa); CEC_{pot}/TEC, pH (water), humus content, total N, C/N ratio; P, Mg, K, calcium (Ca), sulphur (S), sodium (Na), boron (B), manganese (Mn), copper (Cu), zinc (Zn), iron (Fe), aluminium (Al) after Mehlich-3, CEC_{eff} (calculated); soil texture

SB Premium: as SB Standard + molybdenum (Mo), cobalt (Co), selenium (Se)

2) The Haney test is only available together with an SB analysis!

Sampling and/or transport not conforming to the standard may affect the results. The invoice recipient receives the report; the client agrees to this. AGROLAB's terms and conditions apply (<http://www.agrolab.com/de/agb.html>). For these soil analyses the special fertilisation advice based on William A. Albrecht is provided by our partner Bodenbalance Kohls GbR. By signing this order you consent to this; AGROLAB hereby informs you (GDPR Art. 13) about the lawful (GDPR Art. 6(1)(b)) transfer of your analysis results and contact data to Bodenbalance Kohls GbR.
